

17_Data Comparison Tool / DDE Module

System Setup				
REDCap Version	LTS 10.0.5	Applica tion URL	https://redcaprsvc.app.vumc.org/	
Browser Version	Google Version 89.0.4389.90 (Official Build) (64-bit)	OS Version	Windows 10	
Actual Execution Time	58 mins (09:30 -10:26)			
Instructions	Reference User Guide for Community User			

Test Summary

Feature Category Description: Data Integrity - *Ensures accuracy and consistency of the data collected in the REDCap database.*

Test Purpose Details: This test script validates the data comparison tool and the double data entry module. **Functional Requirements:**

- Data Comparison Tool / DDE Module
 - 17.1 17.5 The system shall provide the ability to compare two records within the same project and display the differences between them.
 - 17.6, 17.10 The system shall support the enabling/disabling of the Double Data Entry module. (Control Center).
 - 17.7 The system shall allow the designation of two users or two roles as data entry persons 1 and 2 who may independently enter duplicate records while restricting their view of the other's records.
 - 17.7 The system shall assign Reviewer rights to all users not designated as data entry person 1 or 2.
 - 17.8 The system shall allow Reviewers to view and adjudicate the differences between duplicate records.
 - o 17.9 The system shall allow Reviewers to merge both entries into a third, single record.

Test Requirements					
Test Users					
ID	User Name	Password	Minimum User's Rights	DAGs and Other Settings	
1.	admin1005	Pswd_1103	Administrator	Pre-existing administrator user	
2.	user1005_1	1005_1Pswd	Normal user can create projects. User has project design/setup rights and access to the Data Comparison Tool.		

3.	user1005_3	1005_3Pswd	Normal user can create projects. User has project design/setup rights and access to the Data Comparison Tool.	
4.	user1005_4	1005_4Pswd	Normal user can create projects. User has project design/setup rights and access to the Data Comparison Tool.	

Project Setup					
ID	Description	Instructions			
1.	Project: 17_DataComparisonTool _DDE_v1005	Project created during script 7.			
2.	Project Setup:	 Disable Repeatable instruments and events. Disable longitudinal data collection. Data Types instrument: textbox has validation type of 'Date (M-D-Y)' 			
3.	Data Import File Name	N/A			
4.	Other Files:	N/A			

Test Steps					
Step #	Action Step	Expected Result	Pass / Fail	Comments	
Help	You must perform the actions listed in this column.	After performing the actions in the 'Action Step' column, you should see the following.	Check 'Pass', if the actual results match the 'Expected Result'; otherwise, check 'Fail'.	Include unexpected results, suggestions. etc.	
1.	Log in as user1005_1 Click 'My Projects' Click '17_DataComparisonT ool_DDE_v1005' Click 'Add / Edit Records' and click 'Add new record' Open the 'Text Validation' form and enter the following information: Name: Rolling Stones EMail: rs@noreply.edu Move form status to Complete and click 'Save & Go to Next Form'. Enter the following information: Name: Mick Jagger text2: singer Textbox: 07/26/1943 Multiple Choice Dropdown Manual: select the first option 'DDChoice5' Radio Button Auto: select the first option 'Choice1' Checkbox: select the first option 'Checkbox 1' Required: 75			Note: Record 1 exists. This step adds records 2 and 3.
